COOKIES POLICY

WHAT IS A COOKIE?

A cookie is a small text file that a website inserts in your computer, smartphone or any device with internet access, containing information about the navigation in that website. Cookies are used to make the navigation easier and do not damage your device.

WHY ARE COOKIES USED IN THIS WEBSITE?

Our cookies have different functions:

Essential cookies: some cookies are essential to access some specific areas of our website. They allow the navigation on the website and the use of its applications, for accessing secure areas through a login. Without these cookies, services that demand the use of cookies would not be allowed.

Analytical cookies: we use these cookies to analyse the data users use on the website and monitor its performance. This allows us to give a high-quality experience with a personalised offer and quickly identify and correct any problems that may appear. For example, we use performing cookies to know what the most popular webpages are; what is the better link method between webpages or even to determine the reason why some webpages are getting error messages. Based on the website use, we can also use these cookies to highlight items or services that we think that may be interesting for users. These cookies are used only for creation and statistical analysis effect, without getting personal information from the users.

Functionality cookies: We use functionality cookies to save users' preferences. For example, cookies can allow users not to insert their name when accessing the website. In short, functionality cookies save the website user preferences in a way that the user does not need to configure the website each time the user enters.

COOKIES MAY BE:

Persistent cookies: they remain stored in the web browser of your devices and are always used when the user navigates in the website. Generally, they are used to direct the navigation according to the user's interests allowing a more personalized service.

Session cookies: are temporary and they remain in the browser cookies until you leave the website. The information gathered allows to identify problems and offer a better navigation experience.

IS IT POSSIBLE TO DISABLE COOKIES USE?

Yes. Cookies may be disable in your browser. However, if you disable cookies, it may prevent that some web services work correctly, affecting partially or totally the navigation of the website.

If you want to block or delete these website cookies, you may do it by modifying your browser settings. To do that, generally you will need to go to "Preferences" or "Settings". For more details about cookies configurations, please go to the Help menu of your browser.
